Your Dog in Germany: Keeping them on the right side of the Law

There are very specific laws in Germany with regards to the keeping of pets. These laws govern how a pet is cared for, what breeds of dogs are banned in Germany, how to walk your dog, and requirements to avoid disturbing your neighbors. Violation of these laws can result in fines up to 25,000 Euro and possible prison sentences up to three years.

The following information should help you to avoid any problems:

General Requirements for Dogs

1. The use of an electrical should collar that is used for disciplinary purposes (wireless fences, anti-bark collars, collars with remote control) is not allowed.
2. Dogs may be crated for no more than two hours a day.
3. The basic requirement for floor space for a dog is as follows:

<u>Height in inches at the shoulder</u>	<u>Minimum floor space in sq ft</u>
Up to 20	65
Between 20 and 25	86
More than 25	108

Additionally, half of that mandatory floor space has to be added for each additional dog kept.

4. The use of a tie-stall for dogs less than 12-months is prohibited.
5. If you keep a dog outdoors you have to ensure that the following is available for the dog:
 - A dog house made of a non-toxic, thermally-insulated material. It has to be made so that the dog cannot injure itself, and set up so that they can lie down in a dry spot. The dog house has to be big enough so that they can turn around and lie comfortably and keep the shelter warm enough with their own heat if there is no additional heat provided.
 - The inside of the kennel must be kept clean, dry and free of parasites.
 - The area outside of the dog house has to provide a spot to lie down that is shaded, protected from the weather and has thermally-insulated floor.
 - One side of the kennel has to provide free sight to the outside.
 - Chaining your dog inside the kennel is prohibited.
 -
6. At least twice a day your dog must have at least two hours contact time with their owner or caregiver (e.g. play, walk, dog school).
7. In addition, at least twice a day your dog must be able to run freely for at least on hour if it otherwise kept in a kennel.
8. If a dog is tie-stalled, it must be older than 12-months, completely healthy and not pregnant. The tie has to be:
 - Able to move freely allowing the dog to move a distance of at least 20 feet.
 - Long enough to allow the dog at least 16 feet to each side.
 - Attached so that the dog may go into their house, lie down and turn around. The dog has to be able to move freely without risk of injury.
 - You may only use wide harnesses or collars that will not cut into or otherwise cause injury to your dog.
 - You may use only ties that are safe from twisting. The tie has to be made of a light material that will not cause injury.

9. If your dog is kept indoors the requirements for contact time and exercise are the same as for dogs kept outdoors. Dogs are not allowed to be chained inside of an apartment or house or kept locked in a separate room.
10. Dog owners must keep their dogs on a leash while walking them on public streets in housing areas. In all other areas, dogs must be automatically put on a leash when other people approach.
11. When walking your dog in forests and fields here in Germany you need to know that the Federal Hunting Laws protects wild animals against injury by dogs (and cats). In order to protect game animals, dog owners may only walk their dog unleashed as long as the dog stays within the owner's direct control. Should your dog hunt or injure a game animal within a hunting area and beyond the owners direct control hunters are allowed to shoot the dog. Dog owners who let their dog walk unattended within a hunting area may be fined up to 5,000 euro.
12. Dog owners need to make sure that their pets don't bark and whine during quiet hours. Those hours are from 1300-1500 and 2200-0600. At other times, owners must ensure that their dog's barking does not last for longer than 10 consecutive minutes (or more than 30 minutes cumulatively per day).
13. Dogs (with the exception of service dogs) are not allowed in grocery stores, butcher shops and other shops where fresh food is sold. Some Konditorei, or cafes, don't allow them either. Many restaurants allow them if they behave properly. Establishments that don't want you to bring your dog inside will have a small sign affixed on the window. It usually shows a picture of a dog and will read something like, wir müssen leider draussen warten (Unfortunately, we must wait outside).
14. German law requires dogs in cars to be secured in either a kennel or with a seatbelt or safety net. This is for the protection of both you and your pet as an unrestricted animal in a vehicle involved in an accident can become a lethal projectile.

Visit: <https://www.tasso.net>

1. Hover your mouse “Tierschutz”
2. Click on “Tierregistrierung”
3. Click on “Registrieren” above the picture in the middle of the page.

4. Select the “English” option towards the upper right side of the registration page.
5. Enter your pet’s registration/microchip number in the “Transponder no.” space and hit “Next”.
6. From here, follow the instructions on the page.
7. If your pet had already been registered with the Tasso under a different owner, see the below notification below the “Next” button before proceeding.

Warning: Please do not use this form when there has been change of pet holder or changes to your data. For changes click on this link: “Notification of change to TASSO e.v.”
